TOBACCO CESSATION & SUBSTANCE USE

EXPLORING CHANGE – BREMERTON
This class provides an opportunity for Veterans to evaluate their substance use and its role in their lives, whether or not they have current plans to make changes. This four-week closed group includes non-judgmental feedback, peer and provider support, and a structure for Veterans to set their own goals— all with a focus upon reducing harm form substance use and other risky behaviors. Abstinence from substances is not a requirement for attending this group, although it might be an appropriate goal for some. Activities might include discussions, questionnaires, objective feedback, values exploration, goal-setting, and relapse prevention.
Contact Kathryn Johnson, LICSW: (360) 473-0366

HOME TELEHEALTH FOR TOBACCO CESSATION
The Home Telehealth Program helps to support you while you quit using tobacco through daily questions and health tips in the comfort of your own home. Registered Nurse Care Coordinators routinely monitor the information that you are sending in and call you to talk about your symptoms and progress. There is no charge for Home Telehealth services. **MANAGING STRESS AND EMOTIONS – SEATTLE**
Helps Veterans learn new ways of responding to uncomfortable emotions in order to improve their ability to cope with life’s difficulties. This 5-week class combines elements of mindfulness, cognitive therapy, and behavioral (exposure) therapy. Participants must join the class at session one and patients already enrolled in MHC or ATC are ineligible. Meets Mondays, 3:30pm–5:00pm. Contact Kelly Caver, PhD: (206) 277-4267, or Nicola De Paul, PhD: (206) 277-3635

**MINDFULNESS-BASED STRESS REDUCTION – AMLK & SEATTLE**
This group teaches methods to work with stress, pain and depression. Held once a week, 9:30am-12:00pm for 8 weeks. Weekdays vary between each group. This group is a standardized, evidence-based approach to teaching mindfulness meditation. The course follows closely the curriculum originally developed at the University of Massachusetts. Clinical trials show benefits of MBSR for chronic pain, PTSD, IBS, fatigue, depression and self-reported attention/memory lapses. Contact Kim Gusta: (206) 277-1721
MOVING FORWARD – BREMERTON & MT VERNON
This 4-week, evidence-based class teaches Veterans effective problem-solving techniques, emotion regulation skills and creative strategies for managing challenges of everyday life, including difficulties arising from mental health diagnoses. The class is specifically designed to help OIF/OEF Veterans adjust to civilian life after returning from deployment, although it is open to any interested Veteran.

Bremerton  Meets on Fridays from 1:00pm-2:00pm.
